# My Experience

## Work Experience

### Work Experience 1

#### Job Title

Lead Developer/Technical Architect

#### Company

Arena Digital

#### Location

No Response

#### I currently work here

Yes

#### From

01/2017

#### Role Description

- Led cross-functional teams to solve complex operational challenges—balancing system efficiency, user experience, and real-world adaptability.
- Built and maintained high-pressure, customer-facing platforms, requiring real-time troubleshooting and conflict resolution—skills directly applicable to handling guest interactions in unpredictable situations.
- Designed data-driven logistics and process management systems—mirroring the kind of structured, yet flexible approach needed to keep park operations running smoothly.
- Developed innovative solutions for streamlining workflows and improving efficiency, demonstrating an ability to observe, adapt, and optimize any system I step into.

## Oregon Job Opportunities

### Location

Independent Consultant (Self-Employment)

### I currently work here

Yes

### From

03/1998

### Role Description

- Built a career spanning 25+ years by identifying inefficiencies, solving complex problems, and navigating high-pressure environments.
- Provided real-time troubleshooting and problem resolution for clients worldwide—requiring adaptability, critical thinking, and quick decision-making.
- Managed long-term client relationships, some lasting over a decade, proving strong communication skills, trust-building, and reliability—all essential for handling public interactions and teamwork in a park setting.
- Specialize in observing patterns, predicting failures before they happen, and implementing streamlined solutions—a mindset that applies seamlessly to operational problem-solving in a dynamic environment.
- Consistently recognized for going above and beyond—clients have described my work as “exceptional,” “highly efficient,” and “better than anyone we’ve worked with.”
- Thrive in self-directed, autonomous roles while seamlessly integrating into structured teams—balancing initiative, accountability, and respect for established systems.
- Regularly entrusted with high-value, high-stakes projects where precision and attention to detail were non-negotiable—mirroring the responsibility required in park operations and guest safety.

### Work Experience 3

#### Job Title

Land Development Analyst

## Oregon Job Opportunities

No

From To

11/2007 10/2017

### Role Description

- Managed a team of volunteers while overseeing platform operations—directly aligning with the ability to work within and support volunteer-driven park teams.
- Created and maintained large-scale information systems that required strong attention to detail, adaptability, and structured problem-solving—the same mindset needed for managing park logistics and safety protocols.
- Developed and optimized data-driven decision-making tools—a skill that translates to identifying patterns in park operations and guest interactions to improve efficiency.
- Navigated highly unpredictable environments requiring flexibility, quick thinking, and the ability to assess and resolve challenges on the fly—precisely what's needed in a dynamic outdoor setting.
