[Tugman Volunteer Services Lead],

I need to let you know what's going on. I'm not putting you in the middle of anything - I just need to know someone I trust within the system has at least heard what happened to me at Honeyman. Because from the outside, it sounds like an impossible story.

[Park Manager] dismissed me today. Over nothing. I have a call with Allison tomorrow to figure out next steps. I was a model volunteer here. I really was. Everyone adored me. I made people feel seen and cared for. I did my job impeccably.

This is what happened:

And I will handle it. I will navigate it. Because that's what I do. And you're outside of it so there's nothing I'm asking of you except to witness.
