Ms. Hubbard and Ms. Bolton:

The cashier's check for \$157.50 was mailed on August 21, 2026, certified mail, tracking number 70212720000003609838.

As of this morning it is being held at the post office awaiting pickup. It has not been signed for. I have opened a service request with USPS, confirmation below.

I am notifying you so that the record reflects that payment was sent on time, that it is available for collection, and that any delay from this point is not on my side. Please arrange for someone to sign for it.

Once it is collected, please confirm receipt in writing with the date, so the two-week release period described in your August 11 letter has a start date on the record.
