I don't know why this had to come from the post office and not from you.

Let it serve as another example of what civic duty can be.

Dear Robert Samuel White,

This is in response to your inquiry regarding your mail delivery service. I apologize for any inconvenience this may have caused you.

All mail addressed to 3565 Trelstad is sorted to go to the carrier route. However, mail is not delivered to this address; it is picked up at the post office. What happens next is the carrier comes across the mail, scans it as attempted, then it is brought back to the office for pick up the following day.

Thank you for allowing us the opportunity to respond. If you have any questions, please contact me at the telephone number below.

Sincerely,

Austin French
