

COMPLAINT: FBI TASK FORCE RESOURCES USED IN A STATE MATTER WITH NO CRIMINAL PREDICATE

TO Investigations Division, Office of the Inspector General, U.S. Department of Justice

FROM Robert Samuel White, P.O. Box 334, Reedsport, Oregon 97467

DATE September 23, 2026

RE Portland FBI JTTF Task Force Officer Jake Hyde; the March 13, 2026 transfer

TESTIMONY v1.10

This is a complaint about the use of FBI resources by a dual-role officer in a state matter that had no criminal predicate and that the officer himself declared, in writing, was not an FBI case. Every fact below is from the Oregon State Police production of September 3, 2026, under PR27478, which I published in full and cite throughout.¹

I am Robert Samuel White. I served as an unpaid volunteer with the Oregon Parks and Recreation Department, and I now serve as a volunteer caretaker on federal land in the Siuslaw National Forest.

On March 3, 2026, an Oregon Parks and Recreation Department emergency manager sent my letters to an Oregon State Police captain: “Fyi – sharing for situational awareness since he is now including the Governor as well as our Director.”¹ The email alleged no crime and quoted no threat. A threat assessment was ordered the next morning.

On March 6, 2026, the matter reached Detective Jake Hyde, Oregon State Police Portland, who serves as a Task Force Officer with the Portland FBI Joint Terrorism Task Force and holds the FBI account JEHYDE@fbi.gov. That morning he forwarded the referral to his FBI account and wrote FBI personnel Rebecca Long (RCLONG@fbi.gov) and Jared Russell (JRUSSELL6@fbi.gov): “Name is Robert Samuel White out of Florence Oregon. But I don’t have a DOB.”¹ At 1:14 PM the same day he reported to his OSP lieutenant: “Based on the website nothing is standing out to me more than what Parks and Rec sent you. Sounds like this person does have a grievance with the former employer.”¹

On March 11, 2026, a criminal intelligence analyst at the Oregon Department of Justice’s TITAN Fusion Center asked Hyde to confirm who was handling the matter. He answered in writing: “Yes, that is correct. Just OSP it is not an FBI case.”¹

On March 13, 2026, from JEHYDE@fbi.gov, Hyde sent my driver’s record and a report about me, “WHITE,ROBERT SAMUEL DMV.pdf” and “ReportRobertWhite.pdf,” to his state account, and minutes later forwarded them to the state case lead.¹

Two days apart, in the same file:

March 11: “Yes, that is correct. Just OSP it is not an FBI case.”

March 13, from JEHYDE@fbi.gov: “WHITE,ROBERT SAMUEL DMV.pdf; ReportRobertWhite.pdf.”

On March 24, 2026, Hyde and the state case lead, accompanied by a Forest Service special agent, came through a locked federal gate to the work center where I live and work.¹ On April 15, 2026, the state closed its assessment: “Ultimately White does not appear to be escalating on the pathway to violence,” and “there is no evidence White has committed any crimes.”¹ No crime was alleged at any point. No threat was ever quoted. The activity documented was correspondence with my own government and publishing.

The production does not show what “ReportRobertWhite.pdf” is, who prepared it, or on what system. It does not show any authority for the March 6 distribution of my name to FBI personnel, for the driver’s-record query run through the task force, or for the March 13 movement of federal-side records into a state file the officer had declared non-federal. It does not show whether the FBI retains any of it today.

I ask the Office of the Inspector General to examine:

1. Under what authority Task Force Officer Hyde used FBI resources, personnel, and systems in a matter he stated in writing was not an FBI case and that had no criminal predicate at any point.
2. What records the FBI created and retains about me, including “ReportRobertWhite.pdf” and the products of the March 6 name distribution, and whether their creation and retention comply with the rules governing task force operations and the collection of information about First Amendment activity.
3. What supervision and audit applies, on the federal side, to a dual-role officer’s movement of information between FBI and state systems.

The complete record of this matter, across eight state and federal institutions, is maintained at oprdvolunteerabuse.org, and every citation in this complaint resolves to a source document. A litigation hold applies to the state matter under DAS Risk Management claim P195403. I will provide any document the Office requires.

Respectfully,

Robert Samuel White
