Hey [Beverly Beach Volunteer Services Lead],

So thank you for your email. I'm going to attach some photos of myself - a way of saying hello, showing off my piercings, and making sure you never forget me. ��

I know you rangers freak out over public records. But I think authenticity is important, and I'm giving my energy to your agency. That's not something I compartmentalize. You get all of me.

I wouldn't want to come to Beverly Beach earlier if it meant I couldn't be there October to December. So I was hoping you had other projects in your MU - this is still unclear to me.

I would ask a favor. I reached out to the VSLs at South Beach and Nehalem. If you'd be willing to put in a word for me, maybe they would consider me more seriously. I understand you don't know me yet, but you will, that's an inevitability, and even the most casual comment would help put me on their radar.

I'm ready to head north.
[Volunteer Services Lead], the VSL here, updated OPRIS already, but thank you.

Sam ��
