[USFS Patrol Captain],

You are responsible for my safety here.

What I should have said more directly:

I did not feel safe on March 24, 2026, when three officers who would not identify themselves or their agency came to restricted federal land to intimidate me over protected speech.

Your response has been to redirect me to channels that do nothing to resolve what actually happened here. That is inadequate. And resolving it is precisely your responsibility — which you all but confirmed in your own emails.

What happened at Oregon State Parks is a civil and constitutional matter. There is no legitimate basis for investigating me or sending officers to my door over it.

Who authorized this visit? And am I safe here?

Robert Samuel White
