Subject	**Re: Inquiry Regarding Forest Service Officer — March 24, 2026 Visit to Oregon Dunes National Recreation Area**
Document	01KMZXP9H06HFJ3DYX6AF98ZGX

[USFS Patrol Captain],

Thank you for the prompt response and for confirming [USFS Special Agent]'s employment and role.

I want to be direct about what your response clarifies and what it does not.

You have confirmed that a Special Agent from the investigative branch visited my federal work center on March 24, 2026. That is a significant clarification. Investigators do not conduct welfare checks. If this was an investigative action, there is a record of it — who authorized it, what its purpose was, and why it occurred on the one-year anniversary of my dismissal from Oregon State Parks.

[USFS Special Agent] refused to identify the two state law enforcement officers who accompanied him. In a legitimate investigation, identifying participating officers is routine. His refusal to do so — and his subsequent hang-up — raises questions your response does not address.

I am asking directly: who authorized [USFS Special Agent]'s visit to my work center on March 24, 2026, and what was the stated purpose of that visit?

I am also requesting the names and contact information of the two state officers who accompanied him.

I will note that this correspondence, along with the official Siuslaw Host/Caretaker Incident Report filed on March 27, 2026, is part of a documented public record.

Robert Samuel White
