SUBJECT **Re: Reopen #26-825; the fee waiver denial has no stated basis**

I would like to say something plainly so there is no misconstruing my position.

I am entitled to the records you have claimed to not even search for yet. You put up a fee wall expecting that to end the matter. It will not. I have paid for records with Oregon State Police - which is how I learned about your involvement - and now with the Office of the Governor. Your \$70 wall will not hold.

I am not looking to embarrass anyone. If you did something embarrassing, I will overlook it if you are honest about it. If nothing actually happened with Lane County, it doesn't even need to be in the archive, but right now, I have no way to confirm that.

I live where your deputies work beside me and I have always treated them with respect and dignity. That will continue. This matter will be treated with professionalism throughout. I am asking for the same in return from you.

Now for the plain part. You have until the end of day tomorrow to release every record I've requested.

If you do not, I will treat the request as denied and we will settle it in court.
