RE The conduct of Detective Jake Hyde, Oregon State Police Portland, Task Force Officer, Portland FBI Joint Terrorism Task Force

TESTIMONY v1.10

This is a complaint about Detective Jake Hyde, an Oregon State Police detective who serves as a Task Force Officer with your Joint Terrorism Task Force. He used FBI accounts, FBI personnel, and federal databases against a citizen who committed no crime, in a matter he put in writing was not an FBI case. Every fact below is from the Oregon State Police production of September 3, 2026, under public records request PR27478, which I published in full and cite throughout.¹

I am Robert Samuel White. In 2025 I served as an unpaid volunteer park host for the Oregon Parks and Recreation Department at Jessie M. Honeyman Memorial State Park. On February 12, 2025, I applied for a paid ranger assistant position there. On February 16 I withdrew the application, and I gave no reason to anyone ([Testimony v1.10, p. 269](#)). On March 5, 2025, the park manager and the park supervisor held me at a picnic table for sixty-two minutes. I recorded it ([Testimony v1.10, p. 181](#)). The park supervisor invented a reason for my withdrawal.⁶ On March 24, 2025, OPRD dismissed me as a volunteer, with twenty-four hours to vacate the park where I lived.² On March 26, 2025, its letter permanently excluded me from every OPRD volunteer program, citing my public comments about staff.³ On August 24, 2025, I published an open letter to the Director requesting five protections for every volunteer.⁴ The Director replied that my concerns would be reviewed through channels she never identified, and on December 8, 2025, she closed the correspondence without reporting any review.⁵ I documented all of it publicly.

On March 3, 2026, an OPRD emergency manager sent my letters to an Oregon State Police captain: “Fyi – sharing for situational awareness since he is now including the Governor as well as our Director.”¹ The email alleged no crime and quoted no threat. The captain commands Government and Media Relations. He ordered a threat assessment the next morning.¹

The matter reached Detective Hyde at 9:10 AM on March 6, 2026. Seven minutes later he forwarded it to his FBI account, JEHYDE@fbi.gov. By 11:50 AM he had sent my name from that account to FBI personnel Rebecca Long and Jared Russell: “Name is Robert Samuel White out of Florence Oregon. But I don’t have a DOB.”¹

At 1:14 PM that same day he reported what he had found in my website: “Based on the website nothing is standing out to me more than what Parks and Rec sent you. Sounds like this person does have a grievance with the former employer.”¹

On March 10 he sent OPRD’s documents to a Major Crimes detective: “FYI for the guy in Florence. Give me a call later this week and we can talk about heading down there.”¹

On March 11 a criminal intelligence analyst at the Oregon Department of Justice asked him to confirm who was handling the matter. He answered: “Yes, that is correct. Just OSP it is not an FBI case.”¹

On March 13, from JEHYDE@fbi.gov, he sent my driver's record and a report about me into the state case file: "WHITE,ROBERT SAMUEL DMV.pdf" and "ReportRobertWhite.pdf."¹ I do not know what "ReportRobertWhite.pdf" is. Nothing in the production says who created it, when, or on what system.

On March 17 and 18 he opened an attempt to locate me. That is his own subject line: "Attempt to locate."¹

On March 22 he received the results: my volunteer schedule, my hours, my duties, the RV I live in, my Jeep and its plates, two screenshots from a hunting application with a waypoint pinned on the work center where I sleep, the road posted with "do not enter and FS Only signs," the gate and the Yale lock on it, the instruction that he could walk the fifty feet past that gate, and the fact that my own supervisor "was told not to advise WHITE that FS LE was inquiring about his whereabouts."¹ He forwarded all of it to the case detective the next morning.¹

On March 24, 2026, one year to the day after the dismissal, he came through that locked gate into a secured federal facility where I live and work.⁷ I answered the door. Asked if they could speak with me, I said "I'm listening." They began to state their reason. I said I would not speak without an attorney. They kept going. I said it a second time and shut the door. Their own report records it: "White immediately stated that he did not want to talk with us without an attorney. I again told White he was not in trouble, and he again responded that he did not want to talk with us without an attorney and shut the door."¹

On April 2, 2026, I served Oregon State Police a litigation preservation notice. On April 3 I filed a public records request for everything concerning the March 24 visit.¹ On April 15 the case detective wrote a report. In it: "there is no evidence White has committed any crimes."¹

Nothing was undone. The driver's record and the report he pulled out of FBI systems sit in the state file. My name sits wherever he sent it inside the FBI. Six months later I have no accounting of either.

I ask that Hyde be investigated: under what authority he used FBI accounts, FBI personnel, and federal databases in a matter he declared was not an FBI case; what the FBI created and retains about me, including "ReportRobertWhite.pdf"; and what supervision applies to a task force officer moving information between FBI and state systems.

A complaint on this matter is before the Department of Justice Office of the Inspector General as of September 23, 2026. The complete record, across eight state and federal institutions, is maintained at oprdvolunteerabuse.org, and every citation in this complaint resolves to a source document.

Respectfully,

Robert Samuel White
