Dear Ms. Gauthier,

Thank you for your reply.

I need to correct an error in the address I provided with my public records request.

The address listed — 82900 Highway 101 — is not a valid civilian address for my location. It is an administrative address assigned to the work center by the U.S. Forest Service for internal purposes and does not correspond to a deliverable location.

This is relevant because on March 24, 2026, law enforcement officers arrived at this location behind a locked federal gate that has no civilian address. Records referencing that visit may document this location in ways that are ambiguous or inaccurate. It should not be a basis for withholding responsive records.

My actual location is the Siltcoos Work Center, Siuslaw National Forest. The following GPS coordinates correspond to this location: 43.87164, -124.13440. When conducting your searches, please be mindful of this circumstance and use your best judgment to locate any responsive records.

I look forward to your next response. It will determine my next course of action.

Sincerely,

Robert Samuel White
