Subject	**Re: PR44279**

After some thought, I am withdrawing section 4 of my request. It is too easily exploited. Sections 1 through 3 are valid records within your systems, subject to public scrutiny. I ask that this public records request be fulfilled in good faith without a clause that allows for substitution. Is the press office a back channel for agencies to dump their problems? The public deserves to know. Your response is the answer.
