TO Senator Ron Wyden, United States Senate

RE A dual-role officer, FBI resources, and a state file that says "it is not an FBI case"

TESTIMONY v1.10

I am Robert Samuel White, your constituent. I served as an unpaid volunteer with the Oregon Parks and Recreation Department at Jessie M. Honeyman Memorial State Park, and I now serve as a volunteer caretaker on federal land in the Siuslaw National Forest. Everything below is from the Oregon State Police production of September 3, 2026, under PR27478, which I published in full.¹

On March 3, 2026, an OPRD emergency manager sent my letters to an Oregon State Police captain: "Fyi – sharing for situational awareness since he is now including the Governor as well as our Director."¹ The email alleged no crime and quoted no threat. The next morning a threat assessment was ordered, and on March 6, 2026, the matter was routed to Detective Jake Hyde, OSP Portland, who also serves as a Task Force Officer with the Portland FBI Joint Terrorism Task Force and holds an FBI email account.¹

That same morning, Hyde forwarded the referral to his own FBI address and wrote FBI personnel Rebecca Long and Jared Russell: "Name is Robert Samuel White out of Florence Oregon. But I don't have a DOB."¹ By early afternoon he had reviewed my website and reported: "Based on the website nothing is standing out to me more than what Parks and Rec sent you."¹

On March 11, 2026, a fusion center analyst at the Oregon Department of Justice asked Hyde to confirm who was handling the matter. He answered in writing: "Yes, that is correct. Just OSP it is not an FBI case."¹

On March 13, 2026, from his FBI account, Hyde sent my driver's record and a report about me, "WHITE,ROBERT SAMUEL DMV.pdf" and "ReportRobertWhite.pdf," into the state case file.¹

Two days apart, in the same file:

March 11: "Yes, that is correct. Just OSP it is not an FBI case."

March 13, from JEHYDE@fbi.gov: "WHITE,ROBERT SAMUEL DMV.pdf; ReportRobertWhite.pdf."

On March 24, 2026, two OSP detectives and a Forest Service special agent came through a locked federal gate to the work center where I live and work.¹ On April 15, 2026, the case-lead detective closed the assessment: "there is no evidence White has committed any crimes."¹ No crime was alleged at any point, no threat was ever quoted, and the officer who used federal resources had himself found, a week before the transfer, that nothing stood out beyond a grievance with a former employer.

The production does not show what "ReportRobertWhite.pdf" is, who prepared it, on what system it was created, or where it is retained. It does not show any authority under which records moved from federal systems into a state matter the officer had declared, in writing, was not a federal case. It does not show whether the FBI retains its copies today, or what became of the March 6 distribution of my name.

I ask three questions.

1. Under what authority does a state detective, acting as a federal task force officer, use federal resources to obtain and transfer records about a citizen into a state matter he has stated in writing is not an FBI case?
2. What did the FBI create and what does it retain about a citizen who was never suspected of any crime, including “ReportRobertWhite.pdf” and the March 6 name distribution?
3. Who, on either side of the state-federal seam, audits a dual-role officer’s movement of information across it?

I ask your office to inquire into the March 13 transfer and into what the FBI holds about me. The production is public, every citation in this letter resolves to a source document, and the full record of this matter, across eight institutions, is maintained at oprdvolunteerabuse.org.

Respectfully,

Robert Samuel White
